BOWLING INSTRUCTIONS FOR BALLY ARCADE by John Collins

1. Control of bowling is by trigger one.
2. To get a new frame, press trigger one when the end of the line is printed.
3. To "send" the ball into the pins, press trigger one.

Dear Bob,

Here are two programs for your own use. Hope you enjoy them.

I am working with another Bally owner on interfacing a printer to the Bally.

One of the connectors you sent me was missing the male half. I believe I can strip the wire + still use it.

Keep up the good work.

John
